

ARMY RULES

WAAAGH!

The infamous war cry of the Orks is known and feared throughout the galaxy. When it echoes across the battlefield, bellowed from countless toothy maws, it galvanises the Orks and riles them into a raucous state of excited aggression.

Friendly **ORKS** units with this ability can:

- Re-roll **advance** rolls.
- Become **riled up**, as stated in other rules.

While a unit is **riled up**:

- That unit has **5+ InSv**.
- That unit's ranged attacks have **[ASSAULT]**.
- When that unit is selected to make an **advance move**, that **advance move** does not prevent that unit from being **eligible to declare a charge**.

War Cry (Once per battle, per army): At the start of the Command phase, you can use this ability. If you do, friendly **ORKS** units with the **Waaagh!** ability are **riled up** until the end of the next turn.

DA BOSS

Whether capable of kunnin' strategy or favouring something far less complicated, the biggest Ork tends to have a voice as aggressive and brutal as the rest of him. His bellows can be heard over the thickest fighting and his reputation ensures the ladz do as they're told.

At the start of the battle round, if a model with this ability is your **WARLORD**, gain 1CP.

UNSTABLE ENERGIES

Ork psykers – Weirdboyz and their unsavoury ilk – release the painful build-up of Waaagh! energy in sudden discharges of power, usually with spectacularly lethal results.

ORKS PSYKER units with this ability have a **psyker level** of 1 or higher, specified in that unit's abilities. Each **psychic ability** has a **psychic level** of 1 or higher, specified in that ability's name.

In a battle round, a friendly **ORKS PSYKER** unit can use a number of **psychic abilities** whose total **psychic level** does not exceed that **PSYKER** unit's **psyker level**.

Example: In a battle round, a **psyker level 3 PSYKER** unit could use three **psychic level 1** abilities, or one **psychic level 1** ability and one **psychic level 2** ability, or one **psychic level 3** ability.

The following are special **move types** that certain or all of your units are eligible to make.

- Embarked within a **TRANSPORT** model that is on the battlefield.

EFFECT: Your unit is set up as described in Set Up (Core Rules, 03.02).

WHILE MOVING:

Joyously anarchic and recklessly destructive, all Orks eagerly get stuck in to every fight.

Friendly **ORKS** units' melee attacks have
[**SUSTAINED HITS 1**].

ENHANCEMENTS

HEADWOPPA'S KILLCHOPPA

Tribal legend speaks of a blood-slick choppa once owned by Grand Warboss Headwoppa – last seen charging headlong into a horde of daemons – that turns up occasionally across the galaxy in different forms. Though it looks normal, a dark voice is said to growl in the mind of the weapon's wielder, driving them on to ever greater excesses of violence.

ORKS model only. If this unit made a **charge move** this turn, this model's melee attacks have +1 **AP**.

DA BOSS IS WATCHIN'

This war leader is a glowering incarnation of violence, his brutality so contagious that when he bellows his blind fury and releases his pent-up aggression, Orks nearby are excitedly swept along with him.

ORKS model only. (Once per battle, per army) In your Movement phase, you can use this ability. If you do, this unit is **riled up** until the start of your next turn.

KUNNIN' BUT BRUTAL

Feigning weakness, this Ork allows his foes to think he's legging it before suddenly piling back into the fight and delivering a brutal flurry of attacks.

ORKS model only. When this unit is selected to make a **fall-back move**, that **fall-back move** does not prevent this unit from being **eligible to shoot/declare a charge**.

FOLLOW ME LADZ

Always found at the forefront of an assault, this Ork likes to be the first into the fray with his mob close on his heels to join in the violence.

ORKS model only. This unit has +2" **M**.

BREAKIN' HEADS
